

My Heart Is Always With You

I always know what to do
Whenever I am with you
My heart speaks of love and
My mind trusts my heart

My lips say the words
That mean so much to us,
“Your love is all that matters,” and
“I want our love to last”

We always give each other
The things we want for us
We always do them with love
Cherished blossoms from the heart

My heart is always with you
That loves your likes and wants
Our past and present intertwine
For us to see our future smile

My heart is very happy
And it will always be
With you I have the eternity to say
“I will love you from day to day”
